CALLED ON M'KINLEY

Members of the National Academy of Science Visit the President.

DEDICATION OF GRANT'S TOMB.

Arrangements Complete for the President's Trip—General Miles and Admiral Brown Will Act as a Special Escort. Agricultural Appropriation Bill Passed. Other Washington News of Interest.

WASHINGTON, April 21.—There were very few visitors at the white house yesterday, it being cabinet day. Judge Day of Canton, the special envoy to Havana, called but did not see the president. Senator Gray of Delaware and Representative Bland of Missouri paid their respects, and Senator Cullom of Illinois and Representatives Foss of Illinois and McCleary of Minnesota were the others who saw Mr. McKinley. The president gave a reception to the members of the National Academy of Sciences, who are in session in this city, late yesterday. The reception was held in the east room. Professor Walcott Gibbs, formerly of Yale college, who is president of the academy, made the presentations.

The Kentucky thoroughbred, Bismarck Jr., which was purchased for the president sometime ago by a gentleman in Cincinnati arrived at the white house stables yesterday. The horse is a beautiful animal, spirited, but well broken and trained. The horse showed no ill effects from his trip and soon after his arrival Mr. McKinley took his first ride astride his back. Mr. McKinley is very fond of horseback riding. He does not mount the horse at the white house, however, owing to the crowd of curious idlers who will collect there to witness the president on horseback, but drives out to one of the country roads in his carriage to some appointed place where he is met by a groom with the saddlehorse.

McKinley at Grant's Tomb.

The arrangements for the president's trip to New York to attend the dedication of the Grant monument on April 27 have been perfected. President McKinley with his family, the members of the cabinet and their wives, the ambassadors and ministers of foreign countries, and a few specially invited guests will leave here on a special train over the Pennsylvania railroad at 10:30 Monday morning arriving in New York at 4:30.

General Miles, commander of the army and Admiral Brown, the ranking admiral of the navy, will accompany the president as a special escort.

After the exercises and review at Riverside park on Tuesday, the president will board the government dispatch-boat Dolphin in the East river and review the naval parade. In the evening Mr. McKinley will be the guest of honor at the Union League club.

Vice President Hobart and the members of the senate and house will leave here on a special train over the Baltimore and Ohio on Tuesday. The precaution of having the president and vice president travel separately on such occasions is taken because, while no danger is anticipated, it is regarded as wise to guard against the remotest possibility of embarrassing the administration of the government in case of the disability of the president.

Showalter (Rep.) was elected to congress yesterday in the Twenty-fifth Pensylvanian district by a large majority.

Billy Birch, the oldtime minstrel died at his home in New York Tuesday of paralysis of the brain and chronic Bright's disease.

Frank T. Palmer of Wisconsin, chief of accounts division of the Indian bureau, resigned Tuesday at Secretary Gage's request.

A committee of citizens of Liverpool presented the retiring United States consul James E. Neal, with a silver service Tuesday.

The White squadron has arrived at New York from Hampton Roads to take part in the ceremonies on the dedication of Grant's tomb.

Poisons engendered by food fermenting in a dyspeptic stomach are the direct cause of rheumatism, gout, bronchitis, liver and kidney complaints, asthma, pneumonia and many nervous ailments.

These results are prevented by the use of the Shaker Digestive Cordial, a remedy discovered and prepared by the Shakers of Mount Lebanon, N. Y. It is in itself a food and has power to digest other food taken with it. This rests the diseased stomach and finally masters the worst cases of dyspepsia. It acts promptly and fresh strength and increase of weight soon follows. The first dose taken immediately after eating, abates the pain and distress so dreaded by dyspeptics. Trial bottles—enough to prove its merit—10 cents.

Deafness Cannot Be Cured.

By local applications, as they cannot

reach the diseased portion of the ear.

There is only one way to cure deafness

and that is by constitutional remedies.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube.

When the tube gets inflamed you have a rumbling sound or

imperfect hearing, and when it is entirely

closed deafness is the result and unless the inflammation can be taken out, and this tube restored to its normal

condition or hearing will be destroyed forever, nine cases out of ten are caused

by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

John R. McLean's
Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

Dangers of the Grippe.

The greatest danger from grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventative of that dread disease. states government will not support the demand for indemnity upon the British government of Edward Ivory, who was for some time in prison in London under suspicion of being concerned in a dynamite plot, and recently fled with the state department a demand for an indemnity of about \$100,000. The proceedings to which Ivory was subjected, it has been found, were regular in every respect, and similar in every point to those that would be imposed in the case of any foreigner or native in the United States, so there is no substantial reason for the interference of the United States government.

Indiana Men Reinstated.

WASHINGTON, April 21.—Bernard Goode of Michigan, superintendent of the dead letter office in the postoffice department, has resigned, and D. P. Leibhard of Milton, Ind., who held the office under the Harrison administration, has been reinstated.

Nominated by the President.

WASHINGTON, April 21.—The president yesterday sent to the senate the names of John A. Merritt of New York, to be third assistant postmaster general, and Michael C. Garber, to be postmaster at Madison, Ind.

WILL HE WITHDRAW?

Hunter Has Both Sides a Guessing as to His Intentions.

FRANKFORT, Ky., April 21.—The statement given out by Hunter's friends last evening that he had already prepared a card withdrawing from the senatorial race, has served to bring another big crowd of politicians to the capital. Many of those who arrived during the night came to urge him to remain on the ticket and the others are candidates who hope to be made the new nominee. The truth seems to be that the fall of both sides is a useless one. Hunter, the knowing ones say, may have prepared such a statement but he is not preparing to withdraw. His enemies say his intimations that he will withdraw are made only for effect, and that when the Franklin grand jury adjourns he will once more boldly claim his right to "fight it out on this line if it takes all summer."

The Kentucky thoroughbred, Bismarck Jr., which was purchased for the president sometime ago by a gentleman in Cincinnati arrived at the white house stable yesterday. The horse is a beautiful animal, spirited, but well broken and trained. The horse showed no ill effects from his trip and soon after his arrival Mr. McKinley took his first ride astride his back. Mr. McKinley is very fond of horseback riding. He does not mount the horse at the white house, however, owing to the crowd of curious idlers who will collect there to witness the president on horseback, but drives out to one of the country roads in his carriage to some appointed place where he is met by a groom with the saddle horse.

McKinley at Grant's Tomb.

The arrangements for the president's trip to New York to attend the dedication of the Grant monument on April 27 have been perfected. President McKinley with his family, the members of the cabinet and their wives, the ambassadors and ministers of foreign countries, and a few specially invited guests will leave here on a special train over the Pennsylvania railroad at 10:30 Monday morning arriving in New York at 4:30.

General Miles, commander of the army and Admiral Brown, the ranking admiral of the navy, will accompany the president as a special escort.

After the exercises and review at Riverside park on Tuesday, the president will board the government dispatch-boat Dolphin in the East river and review the naval parade. In the evening Mr. McKinley will be the guest of honor at the Union League club.

Vice President Hobart and the members of the senate and house will leave here on a special train over the Baltimore and Ohio on Tuesday. The precaution of having the president and vice president travel separately on such occasions is taken because, while no danger is anticipated, it is regarded as wise to guard against the remotest possibility of embarrassing the administration of the government in case of the disability of the president.

FIFTY-FIFTH CONGRESS.

Morgan's Cuban Resolution—Agricultural Appropriation Bill Passed.

WASHINGTON, April 21.—Senator Morgan's resolution declaring that a state of war exists in Cuba was discussed briefly in the senate yesterday and then went over for a week owing to the absence of Senator Hale of Maine who has been active in opposition. Mr. Morgan again urged the need of speedy action by this country to stay the devastation going on in Cuba. He had just listened, he said, to the testimony of a witness before the committee on foreign relations, which presented a shocking condition of affairs in Pinar del Rio. It was morally impossible that the people of the United States should close their eyes to these horrors much longer. We are, he said, aroused over Greece and Crete and Armenia, but the very stench of these horrors is under our nose. He wanted Americans protected and scenes worse than those in the bloody days of the Netherlands brought to an end. If the senate passed this resolution, as he believed it would, human lives would be saved. The resolution went over.

The object of the league will be "civil and religious liberty, and no further interference of priests in politics; absolute independence of alliances with any English party and reverting to the old demand for co-ordinate parliaments; the principle of federalism in Mr. Gladstone's home rule proposals and manhood suffrage, which will give the Parliament political majority in Ireland."

The league will also urge the immediate redress of Ireland's financial grievances, amnesty for all political prisoners, land law reform, and the development and encouragement of labor and the industrial resources of the country, etc.

GEORGE F. McCULLOCH.

Muncie Man Elected Chairman of the Republican State Committee.

INDIANAPOLIS, April 21.—The Republican state central committee met yesterday and elected successor to John K. Gowdy, now consul general to Paris. The retiring chairman refused to take part in the selection of his successor. There were two gentlemen urged by their friends for the position, George F. McCulloch of Muncie and George W. Self. The latter gentleman said he had no desire for the place but finally agreed to serve if elected. He decline to ask anyone to vote for him. There was a large delegation of Muncie citizens here to urge Mr. McCulloch's claims, and to refute charges that had been made against him regarding organized labor. When the committee met Mr. Self requested that his name not be presented. The representatives of organized labor here in opposition to Mr. McCulloch were given a hearing. Then another delegation was admitted which told of his friendship to labor organizations. After these hearings McCulloch was elected chairman.

JOSEPH E. KELLY Confesses That He Alone Killed and Robbed Stickney.

Montreal, April 21.—Joseph E. Kelly confessed yesterday to the murder of Cashier Stickney at Somersworth, N. H. He admitted that he committed both the murder and robbery, and says he had no accomplice. He vehemently insisted, however, that he had no intention of killing the cashier, but that he had to do it because the old gentleman recognized him. After felling Mr. Stickney with blows on the head, when the cashier showed signs of regaining consciousness he slashed him with a knife.

telegraphed here that the Turks at that point were completely and finally repulsed.

In Athens greater attention has been paid to the operations in the neighborhood of Reveni than to those at Milonna pass. The theory all along has been that if the Greeks could establish themselves at Damasi their road would lie open to Elasona.

SITUATION IN DOUBT.

The exact situation at Tyrnavo is somewhat in doubt. The news from that point is conflicting. But there is no confirmation of the rumor that the place has been captured by the Turks. What seems to have happened is that Tyrnavo was evacuated in order to send troops forward to Reveni and was then reoccupied by troops returning from Milonna.

A dispatch from Milonna Pass says the Turks have just commenced to shell the town of Tyrnavo. All the roads leading to Larissa are crowded with fugitives shouting, "Reserves, don't try conclusions with the Turks." The Greek villages in the plain are completely deserted.

A dispatch from Arta says that 3,000 Greeks have crossed the frontier at Bani, and a severe artillery duel has been in progress since Monday. The Greek artillery has silenced the Turkish fort commanding the town. Two attempts by the Turks to cross the river were repulsed. There has been brisk artillery and infantry firing along the line for about five miles. Two Greek officers and many Turks have been killed.

REPORT CONFIRMED.

The report of the capture of Damasi by the Greeks under General Smolenit is confirmed by official dispatches. Official dispatches also report that further heavy battles have been made in Turkish forts at Prevesa. The bombardment ceased at nightfall, but was resumed this morning.

The ironclad Spetzia has left the gulf of Arta to join the eastern squadron, which it is said, has an important mission.

RIVER FAILING FROM MEMPHIS TO VICKSBURG AND BELOW.

MEMPHIS, April 21.—The river at Vicksburg and Helena, Natchez and all along from St. Joseph, La., to Bayou Sara, La., was reported either stationary or failing last night. This condition is the result of a vast amount of water passing through the crevasses at Biggs and Reeds levees above Natchez and at Hancock, below.

Should the Greeks succeed in reducing the forts at Prevesa as now seems probable, and in occupying the town with the large land force operating with the bombardment of warships, the road to Janina would be open and the Turkish troops in Epirus placed at the most serious disadvantage. The strategic value of Prevesa to the Turkish dictator in Albania is that so long as it remains in the hands of the Turks it makes possible a steady line of ammunitions and food supplies. With Prevesa in the hands of the Greeks this line would be promptly cut, and it would be practically impossible to re-victual the Turkish troops by the long land route through Macedonia. On the other hands, the Greek troops could be revictualled by sea.

Taking a general survey of the field the fortunes of war thus far are pretty evenly divided, but the chances for the immediate future are decidedly in favor of the Greeks.

centrated there under the crown prince, they will be between two grand divisions of the Greek army. This seems to have been the object of Greek strategy.

DESPERATE BATTLE.

Capture of Damasi by the Greek Troops.

TOWN BURNED.

ATHENS, April 21.—News has just reached here that the Greeks, after a desperate battle, have captured and burned Damasi. Vigilia is still resisting. Another division of the Greek troops, it is reported, has traversed the Reveni pass and captured three blockhouses.

This division has almost reached Damasi, where it will effect a union with the force that captured the town. The 400 troops under General Smolenit displayed the greatest bravery.

Reveni lies 12 miles northwest of Larissa. Edhem Pasha, with a force of 40,000 troops, led seven assaults against it yesterday, but all were repulsed by the Greeks. Crown Prince Constantine has

TERrible Tale of Woe.

NATCHES, Miss., April 21.—A terrible tale of woe comes from Bayou Videl, in the lower portion of Madison parish. The water from the Biggs crevasses caught the people there unprepared and unaware of danger. Word was sent out from that locality requesting that boats be sent there at once, as the people were drowning. How many were actually drowned is unknown, but Thomas Blackman, his wife and infant are known to have been drowned. It is believed others have perished. Boats have been sent to the fatal locality.

TRAVEL DEMORALIZED.

BOISE, Idaho, April 21.—Travel on the Oregon Railway and Navigation company's line is badly demoralized. There has been no train from Portland since Saturday and there is no immediate prospect of resumption. A number of bridges are reported washed out between Huntington and Baker City.

HAD NO ACCOMPLICE.

JOSEPH E. KELLY Confesses That He Alone Killed and Robbed Stickney.

Montreal, April 21.—Joseph E. Kelly confessed yesterday to the murder of Cashier Stickney at Somersworth, N. H. He admitted that he committed both the murder and robbery, and says he had no accomplice. He vehemently insisted, however, that he had no intention of killing the cashier, but that he had to do it because the old gentleman recognized him. After felling Mr. Stickney with blows on the head, when the cashier showed signs of regaining consciousness he slashed him with a knife.

FOOLED HER PARENTS.

Started to College, But Goes to Detroit and Marries.

WEST UNION, O., April 21.—Miss Loreta Broloover left a few days ago for Oberlin college, where her parents had made arrangements for her to attend school. Instead of going to the college, the young lady took a trip to Detroit, Mich. Her mother has just received a letter from her, stating that she had married a gentleman of that city.

CITY COMMISSIONER STARVING.

LORAIN, O., April 21.—City Commissioner Kramer yesterday applied to the township trustees for help. He had received no pay for four months and was starving. Not being able to realize anything from the work he did on the streets he said the only course left him to pursue was to ask for aid. Citizens who called at the home of the commissioner positively assert that it is one of

the severest trials.

DANGER! Few appreciate the danger to which the expectant mother is exposed and the foreboding with which she looks forward to the hour of woman's severest trial.

Mother's Friend

so assists nature that the change goes forward in an easy manner, without the violent protest of Nature, Headache, etc. Gloomy forebodings yield to hopeful anticipations, she passes through the ordeal quickly and with little pain, is left strong to joyously perform the high and holy duties now devolved upon her, and the time of recovery shortened.

Poisons engendered by foot fermenting in a dyspeptic stomach are the direct cause of rheumatism, gout, bronchitis, liver and kidney complaints, asthma, pneumonia and many nervous ailments.

These results are prevented by the use of the Shaker Digestive Cordial, a remedy discovered and prepared by the Shakers of Mount Lebanon, N. Y. It is in itself a foot and has power to digest other foot taken with it. This relieves the diseased stomach and finally masters the worst cases of dyspepsia. It acts promptly and fresh strength and increase of weight soon follows. The first dose taken immediately after eating, abates the pain and distress so dreaded by dyspeptics. Trial bottles enough to prove its merit—10 cents.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents. Hall's Family Pills are the best.

John P. McLean's
Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.
